27<sup>th</sup> April 2020

Dear parent,

I hope you are all well and enjoying the sunshine. Welcome to Week 4 of activities. Please do as many as you can.

The activities are:

1. Take words from the common exception list/high frequency list and play spelling games with your child. A sheet has been sent home with different ideas of how your child could practice their spellings. On a Friday, the children are asked to be tested on the spellings they have learnt from that week. In school we say a sentence with the spelling in and ask the children to write the whole sentence.
2. Maths - TT Rock stars - the children can play this game which works by giving them questions based on their initial assessment game. They can then earn coins and 'buy' things with these coins they have earned.
3. Science - we begin looking at Plants this week. Using education city games and purple mash to create a descriptive piece on how plants grow.
4. Art – RE - create a cross in a stained-glass window style. Can you think of important words about Easter and Jesus dying on the cross to put onto your picture?
5. Please carry on reading at home. Helpful reading comments are on our website.
6. Maths work is to be found on the education city website. In addition to this, any work on telling the time and measurement in centimetres, millimetres and metres would be fantastic.

Also the topic web is attached which is what the children would be learning during summer term - feel free to have a look and complete some activities if you feel this would be beneficial - but do not feel any of it has to be done. It is just an additional tool if you feel you would like to complete any of it.

Thank you very much.

We look forward to seeing you very soon.

Miss Simmonds and the Year 3 team
