Head Teacher: Mrs Paula Fearn

27th April 2020

Dear parent,

It's week 2 of the summer term already! I hope that you are happy, keeping well and have been enjoying getting some fresh air on these lovely sunny days.

Here's the template for the week. Please keep doing what you are doing, it is a guide and needs to fit in around your day at home. If you want more to do, the follow-on tasks should keep you busy if you need them. The home-learning has got to work for you. I have 4 children (6 years apart), although they are a little older now, I remember how fun juggling life with a young family can be!

I had to go into the back catalogue of the Joe Wicks 5 minute workouts to start the day, so you might recognise some of these videos! I have also set some more activities on Education City and Purple Mash this week. It's also a great way for me to check in and see how you are getting on, I hope you enjoy them!

Phonics

There's a different phonic activity on Education City each day this week and tricky words on Friday. After the online activity choose some words from your phonics screening list, read them and draw sound buttons on them as a follow-on activity.

Guided Reading

There are new RWI guided reading books for you this week. Over the week read them 3 times, starting with the speed sounds, green words, red words and then the text. Answer the questions to talk about.

Maths

Watch my video on measure! Measuring in units of measure (paper clips or pegs), learning how to measure with a ruler and tape measure in cm. Complete the tasks set on the video tutorial. If you need a ruler template see the attachment that you can print out. Here are some other ideas for measuring tasks:

- Measure the family to see who is the shortest, who is taller and who is the tallest!

- Measure toys, put them in height order and measure them too.
- Measure your feet and order your shoes smallest to largest, or largest to smallest!

SCIENCE

I am growing a broad bean at home. It is taking a while to get going! I am hoping to keep a photo diary of my broad bean when it starts to germinate. In the meantime, complete the activity on **Purple Mash** - Plants labelling and growing.

GEOGRAPHY

This week it's all about maps! Thinking about symbols you might see on a map, log onto **Purple mash** - play map symbols pairs, it will really challenge your memory too!

PSHE

This term's topic is 'growing'. So, log onto **Purple mash** - the task is 'when I grow up'. Watch the short film of children talking about what they want to do when they grow up and then tell us what you would like to do when you grow up!

RE/ART

Finish the Easter garden you started last week.

MUSIC

Watch my video on polyrhythms. See if you can create your own polyrhythm!

FOLLOW ON ACTIVITIES

PHONICS

Write a sentence for each phonics screening word.

SPELLING & HANDWRITING

Choose a few new words each day and practice writing them by starting and finishing in the right place. If you're not sure where they start and finish, have a look at the letter formation sheets to help you. Can you challenge yourself to spell them without looking? Super challenge - can you write them into a sentence in joined up handwriting? Have a go!

GUIDED READING

Matilda & Fantastic Mr Fox answer the 'questions to read and answer'.

MATHS

Follow on activities:

CHILLI CHALLENGE! *See how many groups of objects you can order in length and measure!*

Can you find items that are half or double the length or another?

GEOGRAPHY

Play the compass directions board game. Can you find the town landmarks at the same time?

Hope you have a great week!

Mrs Gannon & the Year 1 team
